Project Description: This project will be a workgroup forum serving as a platform for strategic health planning and coordination of community-wide efforts to improve health outcomes across each region in Pennsylvania. Applicants will assist with planning, communication, implementing outcomes and deliverables, and other items needed to move the multidiscipline workgroup to achieve its goals. Planning for the workgroup will focus on areas that experience multiple barriers to care and health disparities. The applicant will work with the workgroup members to establish strategies and interventions to address those root causes of social determinants of health and health disparities.

Project Duration: 250 hours

Special Skill(s):
- Knowledge of Excel
- Excellent communication, both written and verbal
- Knowledge of social determinants of health
